NO. 30

GRAYOT CHOICE OF DEMOCRATS PARTY MANAGER

Madisonville Man's Selection as Campaign Manager Is Approved by Leaders

Louisville, Ky., July 27.—John L. Grayot, Madisonville, Commonwealth's Attorney for twenty-three years, and for more than twenty years Democratic leader in the Second Congressional District, has been informally selected to manage the Democratic Presidential and Senatorial campaign in Kentucky this year, it developed today.

Following a series of conferences held throughout the day, it was announced by friends of Mr. Grayot, who also are United States Senator Beckham's closest political friends, that Mr. Grayot had been agreed on by all branches of the party in the State.

When the Democratic State Central and Executive Committee assembled at Democratic Headquarters in The Seelbach this afternoon, Mr. Grayot will be elected to direct the State campaign unless plans agreed on last night are changed before the meeting.

Beckham and Stanley Approve
Mr. Grayot's selection is regarded as a distinct victory for Senator Beckham. It also became known last night that Senator Stanley gave his undivided support to Mr. Grayot's friends when his name was suggested. At the same time, it is pointed out that Mr. Grayot has been identified with no party faction.

Senators Stanley and Beckham; Percy Haley and other Democratic leaders approved Mr. Grayot's selection at a conference at The Seelbach last night.
Mr. Grayot, who will celebrate his fifty-fifth birthday August 3, next, was first elected Commonwealth's Attorney of the Fourth Judicial District, composed of Livingston, Caldwell, Crittenden and Hopkins Counties, when 24 years old, and served continuously for twenty-three years, retiring voluntarily January 1, 1916, to resume the practice of law.

SCHOOL ATTENDANCE LAW

1. The county board of education of each of the several counties shall appoint with the approval of the county superintendent, at least one attendance officer, male or female, who shall give his or her entire time to the duties of office; and such additional attendance officers may be appointed as the county board of education may deem necessary. The compensation of such attendance officer or officers shall be fixed by the county board of education and paid from the county school fund.

2. Every parent, guardian or other person residing within the boundaries of any county school district having the custody, control or supervision of any child or children to be enrolled in and to attend regularly some common, private or parochial school each school year for the full term of such school, provided that in the case of a private or parochial school the term shall be for a shorter period in each year than the term of the common school of the district of the child's children's residence, and that the teacher or teachers and the course of study of such private or parochial school shall have been approved by the State Board of Education, and at reports of the attendance of all children enrolled in such private or parochial school shall be submitted in such private or parochial school in the same manner as required of common schools; and provided further, that the provisions of this section shall not apply to any child who is excused by the county board of education upon its being shown the satisfaction of such board by certificate of the public health officer of the county that such child is in proper mental or physical condition to attend school; and provided further, that the provisions of this section shall not apply to any child who has satisfactorily completed the full course of instruction offered by the public schools of the district where he resides.

It shall be the duty of the teacher at the end of each week to report the name and age of each child residing in her school district who fails to attend school herein prescribed to the attendance officer immediately to investigate said case or cases and if it be neglect or refusal on the part of the person who has such child under his control to report said case or cases to the nearest court having jurisdiction of the same, and it shall be the duty of said court immediately to issue his warrant against the person having control of such child who fails or refuses to send said child to school and said court shall proceed to try said case as other criminal cases are tried. Any person who has a child under his control and who fails to comply with any of the provisions of this section shall be guilty of a misdemeanor and shall be fined not less than five (\$5.00) dollars for each offense.

5. All acts or parts of acts inconsistent herewith are hereby repealed.
Approved March 22, 1920.

SULPHUR SPRINGS

This section was visited by a fine rain, Saturday evening. There was also quite an electrical storm, but no damage was reported in this section.

E. D. Murphy, of Chatam, Ill., visited relatives and friends in this section, several days, last week.

The loud sounding guffaws being indulged in by the Republican press of the country shows they have a kind of sinking feeling about the pit of the stomach and they must laugh to keep up courage. That feeling will get worse as the days go by and we would advise them to stand from under, as something is going to drop before the November days are over, and someone is going to dream that he dropped off to sleep under a pile driver.

John H. Miller, one of the most prominent farmers of this section, died at his home late Saturday evening after a short illness. The physicians do not seem to know just what the disease was. The funeral services were conducted at Marvin's Chapel, by his pastor, Rev. Burdette, assisted by a very instructive and impressive talk by Rev. Bandy, of Fordville circuit.

Mr. Miller has been identified with the church work at Marvin's Chapel many years and the place he has left vacant as a Steward will be hard to fill. After funeral services the remains were laid to rest in the cemetery at Sunnydale. The high esteem in which he was held by his church and all who knew him was shown by the presence of the largest concourse of people ever congregated at Marvin's Chapel or at the cemetery at Sunnydale.

MCHENRY

Mr. and Mrs. J. O. Hocker and children, of Hopkinsville, spent the week-end, as guests of their parents, Mr. and Mrs. L. W. Hocker.

Miss Irene Martin who has been visiting friends in Illinois, has arrived home.

An interesting ball game was played here Sunday, between McHenry and Martwick, the score was 3 to 0 in favor of McHenry.

Miss Louise Maddox will leave soon to visit friends at Vine Grove.

Mrs. Ross Morris and little daughter, Alberta, of Booneville, Ill., have been the guests of Mr. and Mrs. R. B. Ingram.

Mr. Alvin Porter, of Herrin, Ill., is visiting his parents, here.

Mr. James Mitchell, of Central City, has been the guest of Mr. and Mrs. Dan Espey.

Mr. and Mrs. George Hunter and little daughter, Martelle, of Bowling Green, is visiting their parents, Mr. and Mrs. Richard Beck.

Mr. and Mrs. Noryll Brown and daughter, Ollie, of New Castle, Ind., are visiting relatives here.

WASHINGTON

People are much puzzled about what the next occupation will be as the berries are about gone.

A protracted meeting will begin here on the 26 inst. Every one come out and lend a helping hand for the good cause.

Mr. W. F. Newcomb left, Thursday, for a several days stay at Dawson Springs.

Mrs. Luther Allen, of Smith Mills, Ky., is visiting her aunt and uncle, Mr. and Mrs. W. F. Newcomb and family.

Mr. and Mrs. S. Barnett L. Tinsley and son, Royce Clifford, spent Sunday, with Mrs. W. F. Newcomb and family.

Mrs. Hartley Park and little son, Philip Ward, and Miss Zola Tinsley spent Sunday, with Mr. and Mrs. O. R. Tinsley and family.

LIGHTNING PLAYS HAVOC WITH BARNS AND STOCK

Saturday's Electrical Storm the Most Terrific Ever Witnessed in This Section

An electrical storm in this section, late Saturday afternoon, left a trail of destruction in many parts of Ohio County. The accompanying rain was reasonably light in this vicinity, but was severe in other parts of the county. Among reports reaching us telling of damage are the following:

A barn belonging to Mr. Pete Shown, who lives on the Hartford and Owensboro road about 2 miles from Hartford, was struck by lightning and destroyed by the resulting fire. All the livestock in the barn were saved but 50 bales of straw and about \$150 worth of farming implements were destroyed. The total loss is estimated at more than \$1000, with only \$350 insurance.

Mr. John Wallace, of Narrows, R. F. D. No. 1, near the M. H. & E. and I. C. R. R. crossing, also lost a barn containing several hundred dollars worth of hay, grain, farming implements and 1 mule, 1 hog, and other articles. Another mule was severely burned but will probably live.

A mule belonging to Mr. Taylor Burch, of near Pattieville, was struck by lightning and instantly killed.

Lightning struck the barn of Mr. Willis Harl, near Davidson, and killed a mule belonging to Mr. Grover Free. He had recently paid \$200 for the mule. The barn was not destroyed.

Mrs. Melzonla Smith, of near Clear Run, lost a horse when lightning struck her barn. The barn was not badly damaged.

HARTFORD YOUNG FOLKS GO HAY RIDING

A truck load of Hartford's young folks, chaperoned by Misses Lella Glenn and Mattie Duke, left Hartford at about 8 p. m., Wednesday, for a moonlight hay ride. They went by way of Beaver Dam, to Cooper's schoolhouse and returned to Hartford by way of Goshen reaching here at 12:30, a. m.

Those in the 'bunch' were: Douglas Williams, Helen Barnett, Everette Himes, Winnie Westorfield, Blanton Ellis, Amelia Barnett, Merville Rhoades, Emily Pendleton, Leslie Hagerman, Carrie McKenney, Ellis King, Dewey Johnson, Virgil Crowe, Mary Warren Collins, Carl Hooyer, Amelia Pirtle, Raymond Felix, Martha Pate, Cecil Tichenor, Margaret King, Willie Patton, Thelma Bennett, Lewis Gray Brown, Wilda Chinn, and Kennedy Collins.

DEMOCRATIC COMMITTEES MEET AT LOUISVILLE

Louisville, July 27.—Election of a campaign manager for the coming Presidential and Senatorial campaign in Kentucky and plans to bring out the full vote of the women of the party in the State will be the chief business before the Democratic State Central and Executive Committee when they assemble today.

United States Senator Beckham, who came to Louisville Sunday following a call on Gov. James M. Cox, Democratic Presidential nominee, at his home near Dayton, probably will attend the meeting.

Mr. Beckham said Sunday afternoon that he was delighted with his visit to Mr. Cox and that he is more convinced now than he was before the national convention that Mr. Cox is the strongest candidate the party could have named.

RATIONING OF GASOLINE PREDICTED SOON

Washington, July 25.—Gasoline refiners may take the joy out of joy riding in the near future by placing automobiles throughout the country on a rationing system that will limit purchasers of gasoline to a few gallons weekly.

It is said that such a system already is in effect on the Pacific Coast and that unless there is an immediate improvement in the gasoline shortage situation generally the entire country faces rationing.

The Hartford Herald, \$1.50 the year

KENTUCKY TO HEAR GOV. JAMES M. COX SPEAK

Senator Beckham is Promised Speeches Will Be Made in the State

Columbus, O., July 24.—Gov. James M. Cox, in carrying the message of progress to the voters of the nation, is planning a speaking campaign which promises to outdo any effort put forward by a Presidential candidate in the past. The limit which he has placed on his tour is represented by his physical ability to meet the test, and by that only. He will leave Ohio shortly after his notification, August 7.

Governor Cox conferred with Edward N. Hunley, former chairman of the United States Shipping Board, and Senator Beckham of Kentucky. Hunley was accompanied here by Edward Hulbert, Chicago banker and business man, who has taken a strong stand for Governor Cox.

Senator Beckham told the Governor that he would undoubtedly carry Kentucky. He asked Mr. Cox to visit the State, however, and got his promise to make three or four speeches during the campaign. Mr. Beckham said that the stand taken by Governor Cox on all of the big issues, including the League of Nations and prohibition, was most acceptable to the Democrats and the Progressive and Independent voters of his State.

Notification May Be in Dayton
Mr. Cox will see Senator Pomerene within the next day or two. Former Ambassador Gerard also has an engagement to talk foreign policies.

There has been some doubt whether the exercises will be held at Traill-end or Dayton. This matter is in the hands of the National Committee, but the present prospect is that the notification will be at Dayton.

It came out today that the Governor will join the tremendous fight which is to be made by the New York State leaders to put that State in the Democratic column. All of the New England States will hear him and he will make a hard fight in New Jersey and other states in that section, which the Republicans are now claiming as safe-ground.

Extended Western Tour

Mr. Cox also probably will spend the entire month of September in California and other far western states. He also will make a comprehensive tour of the Middle West. 'I shall visit every state' he said today, 'which is not Democratic beyond the slightest doubt. There are no other kind,' he added with a smile. This remark, perhaps, best illustrates the spirit in which Gov. Cox is preparing to take up the fight. He expects to outdo Mr. Roosevelt and Mr. Hughes, so far as sustained campaigning is concerned. Republican leaders who had hoped for a quiet time of it might as well disillusion themselves now.

LADIES' SOCIAL CLUB ENTERTAINED BY MRS. GLENN

The Hartford Ladies' Social Club met with Mrs. J. S. Glenn, at her residence on Walnut street, last Wednesday afternoon. Those present were entertained in a very delightful manner. Mrs. E. E. Birkhead made the highest score in the series of riddle games. A delicious two course lunch was served at the conclusion of the playing.

Guests present were: Miss Myrtle Chapman, of Memphis, Tenn., Mrs. J. C. Her, of Louisville, Mrs. Henderson Murphree, of Owensboro, Misses Mattie Sandefur, Myrtle Maddox, Mary Marks, Mattie Duke and Mrs. Ira Bean. The members present were: Misses Lettie Marks and Sophia Woerner; Mesdames: Zimmerman, Cooper, Barrass, Kirk, Porter, Holbrook, Taylor, Tinsley, Sul-lenger, McCracken, Birkhead, Collins and Mischke.

Made A Change in Her

Mrs. L. Gibson, 12th & Edison St., LaJuna, Colo., writes: 'My kidneys were giving me a great deal of trouble for some time and I took Foley Kidney Pills and they helped me right away. They made such a change in me that I feel fine.' Foley Kidney Pills promptly relieve back-ache, rheumatic pains, sore, swollen or stiff muscles and joints. They put the kidneys and bladder in sound, healthy conditions.

ANNUAL MEETING ON GREENVILLE FIELD TO BE HELD AUGUST 3

The annual meeting will be held on the Greenville experiment field Tuesday, August 3, and will be attended by farmers from Muhlenberg, Butler, Ohio, Hopkins, Webster, Union, Henderson, Davies and McLean counties. Addresses of interest to the farmers will be made by Dean Thomas P. Cooper, Professor George Roberts, Professor E. S. Good, S. C. Jones of the College of Agriculture and by local speakers.

On the Greenville field will be seen excellent crops that have been practically doubled within a period of six or seven years. What has been done on the Greenville field may be done to the entire western coal field. Land that six or seven years ago was unproductive and unprofitable now is growing good crops and the result of the field experiment is well worth a trip to see. The increase of crops obtained from the use of limestone and phosphate is worth from \$50 to \$100 in four crop rotation and the cost of the treatment is only about \$15. The western experiment fields were established in 1913 and the soil improvement work was made on a permanent basis to determine what various methods of treatment would do.

The program for the meeting will consist of a talk on a subject of agricultural economy by Dean Cooper; the general question of maintenance of production by Professor Roberts; the actual results of the experiments by S. C. Jones and on the subject of livestock by Professor Good. If the weather permits a picnic lunch will be enjoyed by the assembly and all farmers are invited to be present.

SUNDAY SCHOOL PICNIC

Sunday July 18, a Sunday school picnic was given in honor of Mrs. Ross Morris and daughter, Alberta, of Bloomington, Ill., who have been visiting relatives and friends here. Sunday school met at 9:00 o'clock and closed at 11:00, after which dinner was served. All reported a delightful time.

Mrs. Morris returned home today (July 20) and her visit was enjoyed by all. Every one hopes she will return in the lapse of time for another visit, but just the same, here's to the Belle of Bloomington. Three cheers, Long may she live and happy may she be.

WELCH—CLINE

Mr. H. O. Cline, and Miss Vina Lee Welch, were united in marriage at the residence of Mr. J. D. Holbrook, Tuesday evening, July 20, in the presence of a few relatives. Rev. Russell Walker performed the ceremony.

The bride is a popular and attractive young lady and is the daughter of Mr. and Mrs. L. A. Welch, of Ralph, this county. She is a niece of Mrs. J. D. Holbrook. The groom is a popular and prosperous young farmer of Canolou, Mo., after visiting relatives, they left, Saturday, for Canolou, Mo., where they will make their future home.

MICKIE SAYS

WHAT? DID I HEAR A VOICE HOLLERING 'PER LIL' MICKIE? REMEMBER, FOLKS, I'M READY TO GALLOP TO ANY PLACE IN TOWN AFTER A DOLLAR JOBBY. MOST ANY TIME—AN' IF I'M TOO BUSY, I'LL SEND 'TH' BOSS!

Hartford Herald, \$1.50 the year

MR. BRYAN IS TO AID DEMOCRATS, HE SAYS

Believes His Place is Back in Ranks, Is Announcement Recently Made

Bozeman, Mont., July 26.—On his arrival here Mr. Bryan, in addition to making public the test of the telegram he had sent to be delivered to the chairman of the Prohibition convention at Lincoln, discussed his decision to decline the nomination, saying:

'I realize that there are many good people who are greatly disappointed with the silence of the old party platforms on the subject of prohibition and the enforcement of the prohibition law, but while I would be pleased if I could accede to their request and make it possible for them to vote for me, I realize also that there are millions of Democrats who have helped to place the Eighteenth Amendment in the Constitution of the United States and who have been my staunch friends in this fight. I feel that I cannot ignore them and I believe I can be of greater assistance by remaining in the Democratic party and assisting them in the future than by stepping outside of the party even to make the race for President.'

Hundreds of telegrams from all parts of the country awaited Mr. Bryan on his arrival here. Many were from newspapers and press associations, but most of them were from prominent persons, some urging him to accept and others to decline the nomination.

MRS. CANTRELL RETURNS TO CAPITAL FROM OHIO

Washington, July 22.—Mrs. James Campbell Cantrell, Kentucky's National Committeewoman, arrived in Washington after attending the meeting of the committee at Columbus, Ohio, where she was one of the three women named on the subcommittee of fifteen to make recommendations for the selection of a national campaign manager. Mrs. Cantrell visited several Kentucky cities following the San Francisco convention, and she predicted that the Democratic party will receive a large majority of the votes cast by Kentucky women in the elections this fall.

SEE THE 'PASSION PLAY'

During the months of July and August the famous 'Passion Play,' the world's greatest drama, with a cast of 500, will be presented at Buffalo, N. Y., on an exact duplicate of the celebrated Oberammergau stage.

A most delightful way of making this journey is via C. & B. Line steamer, the Great Ship 'SEAND-BEE' and sister ship, the 'CITY OF BUFFALO,' leaving Cleveland daily at 9:00 p. m. and arriving Buffalo 7:30 following morning, or on daylight trip from Cleveland every Saturday at 9:00 a. m. and arriving Buffalo 7:00 evening of same day. (All Eastern Standard Time.)

PAINFUL ACCIDENT

Little Miss Margaret Tichenor, daughter of Mr. and Mrs. Everette Tichenor, of near Centertown, received a very painful injury last Thursday. She and her sister were playing with a lawn mower and her thumb was caught in the instrument in such a manner that it was cut off.

POSTMASTERS' CONVENTION

The State Convention of the National League of Postmasters will be held at Hotel Henry Watterson, Louisville, Ky., on Aug. 9 and 10, 1920. An excellent program is announced.

'ODD FELLOWS'

Mr. W. B. Harris, Grand Master of I. O. O. F., Morganfield, Ky., will lecture on Odd Fellowship at Centertown Baptist church, Saturday night, July 31. All Odd Fellows and the public in general are invited to come and hear a good speaker on a good order.

Magnolia Lodge No. 181 I. O. O. F. C. S. ROWE, N. G. ALVIN ROSS, Sec'y.

HARTFORD HERALD AND DAILY OWENSBORO MESSENGER 1 YEAR \$6.10.

Mrs. Charles E. Rogers, of Elkton, Ky., spent the week-end here visiting her parents, Capt. and Mrs. S. K. Cox.

Miss Martella Culley, of Stanley, Ky., arrived Friday, to make an extended visit with her sister, Mrs. L. G. Barrett.

Mr. Randall Collins, traveling salesman for the DuPont Powder Co., spent a few days with his family here, last week.

Mrs. Bessie Daly, of Detroit, Mich., arrived in this city, last week, to spend two or three weeks with her mother, Mrs. A. W. Mills, and family.

Miss Elizabeth Nelson, of Jackson, Mich., is visiting her aunt, Mrs. John A. Duke, and Mr. Duke, and her uncle, Dr. J. R. Pirtle, and Mrs. Pirtle.

Prof. J. F. Bruner was in Cromwell and Selet, Friday, for the purpose of assisting some agricultural students, who have projects during the summer.

Mrs. Frank Bradshaw, of Stanley, Ky., and Mrs. P. H. Taylor, of Danville, Ky., arrived last Thursday, to visit Mr. and Mrs. Wm. Fair and other Hartford relatives.

Rev. N. C. Robison passed through here Friday, enroute to Fordsville to attend the Missionary Board Meeting. He will fill his appointment at Adaburg the 1st Sunday in August.

Mr. and Mrs. Thos. H. Bean are visiting their daughter, Mrs. B. M. Tanner, and Mr. Tanner in Portsmouth, Ohio. They will visit their other daughter, Mrs. N. L. Rowe, of Akron, Ohio, before returning.

Mr. and Mrs. M. T. Likens and son, Arnold, left Tuesday, as per schedule, for Washington, D. C., where they will make an extended visit with Mr. Likens' brother, Mr. G. B. Likens, and family. They motored through.

Col. Thomas Stevens, of the Commodore Hotel, Beaver Dam, was in Hartford, last week preambulating his friends and taking an occasional handshake.

Mrs. Nannie Dever, of Dundee, spent last week here, visiting her sister, Mrs. Henry Bean, and Mrs. Bean.

Mrs. V. L. Clark, of Rockport, spent the week-end with her parents, Mr. and Mrs. R. M. McElwain from Monday till Wednesday.

Mrs. Lourene Collins, of Green, spent the week-end with her parents, Mr. and Mrs. Randall Collins, here.

Col. Thomas Stevens, of the Commodore Hotel, Beaver Dam, was in Hartford, last week preambulating his friends and taking an occasional handshake.

LADY'S PURCHASE WAS SMALL BUT BENEFITS GREAT

Few Bottles of Trutona Relieved Mrs. Benner of Former Severe Billious Attacks

Louisville, Ky., July 27.—"For the six dollars I've paid out for Trutona, I feel that I've received \$1000 worth of benefits," says Mrs. C. Benner, who lives in Louisville at 1123 Bardstown Road.

"I'll admit that I didn't have much faith in Trutona, at first, but it soon proved to be the medicine for my ailments, I used to suffer severe bilious attacks. No one knows the terrible feeling I'd experience during these spells. Some times they would attack me while I was down town, and I'd have a hard time getting home. My appetite was so poor that hardly any kind of food tempted me, and my liver had been out of shape for the past two years."

"After I had taken three of the six bottles of Trutona, which I purchased, I realized it was helping me, and now, with the fourth bottle finished, the bilious attacks have ceased to occur. I haven't had a spell for the past week, and my kidneys are in better shape, too. I can truthfully recommend Trutona, to those who are suffering as I did." Trutona's healthful action reaches every portion of the body, and performs its work faithfully and efficiently. Trutona rebuilds diseased nerves and tissues, creates a healthy appetite, and assists in the assimilation and digestion of the food. It's the Perfect Tonic, because of its merit.

Trutona is sold in Hartford, at James H. Williams and in Beaver Dam, at the Beaver Dam Drug Store. —Adv.

TAKE YOUR MEDICINE

(McLean County News) However bitter the dose we always take our medicine.

The Calhoun base ball team up to last Sunday had not lost a game this season, but on that fateful Sunday afternoon she went up against an extraordinary aggregation of ball players, from Hartford and now the Invincibles are not so much so as they once were. Calhoun however, went into the game crippled by the absence of two of her best men, Harry Sebald and Pud Vetrees, who were out of town.

The game which was largely attended was not so interesting as it would have been had the contest been closer. Nine innings were played the score standing 10 to 3 in favor of Hartford.

SPRAY USED NOW WILL HELP SAVE APPLES

Lexington, Ky.—The codling-moth which produces the worm found in apples in the fall and winter will be destroyed if the farmer will spray the orchard immediately before the second brood of the moth is formed. The College of Agriculture recommends this spray made of 1½ pounds of powdered arsenate of lead to fifty gallons of either bordeaux mixture or lime sulphur solution. Bordeaux is preferable and the spray should not be neglected if the apples are to be free from worms in the winter.

BE OPTIMISTIC

Here's Good News for Hartford Residents

Have you a pain in the small of the back? Headaches, dizziness, nervous spells? Are you languid, irritable and weak? Annoyed by urinary disorders? Don't despair—profit by Hartford experiences.

Hartford people know Doan's Kidney Pills—have used them—recommend them. Ask your neighbor.

Here's a Hartford resident's statement:

L. P. Turner, farmer, Clay St., Hartford, says: "I am glad to recommend Doan's Kidney Pills because they relieved me when my kidneys and back troubled me. I consider Doan's Kidney Pills a reliable medicine and deserving of great praise."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Turner had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. Adv.

EARLE WILLIAMS

"Don't change your company," is the advice Earle Williams gives to young screen players, and then he adds, "providing you are with the right company." Earle Williams is one of the few film players who has never changed his habitation from one studio to another. He commenced his career 12 years ago with the Vitagraph star family and has never strayed from the fold. "The Wolf," visualized from Eugene Walters' famous stage play, and "The Fortune Hunter," from Winchell Smith's play, have been the means of emphasizing Mr. Williams' ability and popular attraction recently.

CLEAR CALL TO AMERICANS

Year 1920 Should Be Remembered by
All as Anniversary of Establish-
ment of Free Institutions.

Distinguished Americans, including William H. Taft, Charles Hughes and Cardinal Gibbons, have appealed to their fellow countrymen to remember and honor by local celebrations at any suitable time beginning June 4 the establishment of free institutions in America. A great year is 1920. Three hundred years ago beginning the 30th of last July, there was being held in Jamestown, colony of Virginia, the first American legislative assembly called by free men of lawful age and understanding. And during this time, with self-government at its birth hour, the Pilgrims from England after a twelve years' sojourn in Holland were making ready to establish in the new world a home of religious freedom. One year after the Virginians met, this Pilgrim band set sail for America, departing from Leyden, Holland, July 30, 1620. Furthermore let it not be forgotten that Nov. 11 is not only the anniversary day of signing of the Mayflower compact, second assumption by English colonies in America of the unalienable right of self-government, but it is also of the signing of the armistice closing the great war in which, as the above representative spokesmen point out, the descendants of the Pilgrims of New England and the cavaliers of Virginia and their kindred crossed the sea and won liberty together. A year with an imperative challenge to renew policies of Americanization and patriotic consecration is 1920, and no community should be without its religious and civic expression in acknowledgment of the past and in dedication to the future.

Landmark to Be Preserved.

The Mullan tree, landmark of the old Mullan trail, the first highway connecting Montana and Idaho with the coast, will be preserved to posterity through the creation of a national monument area by the president. On July 2, 1861, Captain John Mullan, leader of the party having in charge the survey and construction of the Mullan trail from Walla Walla, Wash., to Ft. Benton, Mont., closed his work at the connecting point of the roads from the east and west, at the head of the Fourth of July canyon, between Wallace, Idaho, and Coeur d'Alene, Idaho. There he marked appropriately a huge white pine tree, which since that time has been known as the Mullan tree. Tourists seeking souvenirs of their jaunt along the Yellowstone trail have damaged the ancient tree so much that forest service officers have found it necessary to take steps to protect it, and to accomplish this have submitted a petition proposing that a national monument area be created, which has been approved.—Kansas City Journal.

The Family Knew.

A certain thrifty young man often calls on a certain young woman, but never yet has he ever taken her to a picture show or out riding in his automobile or even to the corner drug store for ice cream. The family has noticed and often commented on what they term his "stinginess," and all before the young woman's ten-year-old brother.

Now, the other night the ten-year-old youngster was in the living room while the young man was calling. The caller, who was sitting close to the fireplace and stretching forth his

hands to the cheerful blaze, suddenly said, "Oh, how I do love to sit before your fireplace and think, think—"

Like a flash came a quick interrup-
tion from the ten-year-old. "Think—
think of how you are saving money
by sitting here," he said.—Indianapolis
News.

Wireless Experiments.

Valuable experiments in wireless telegraphy are being conducted by the French war sloop Aldebaran, which has been cruising in the Pacific near the Chatham and Bounty Islands. Lieutenant Gulerre, wireless expert, will probably submit the result of his experiments to the International wireless conference in Washington shortly. He states that the wireless "reception" in New Zealand from French instruments in of special interest to continental experts, as New Zealand is practically the antipode of France. It is claimed that the Aldebaran is carrying out for the first time a truly comprehensive system of measuring the strength of "receptions," although an American had pioneered the way in this respect.

The Unmistakable Cockney.

Lady Georgiana Peel tells some good stories in her "Recollections." One concerns her father-in-law, General Peel. He was at a banquet in Paris. Mis-
trusting his capability of conversing in French, he talked during most of the dinner to a neighbor who he knew liked alring his English; but after a time he made up his mind he must talk to the silent French gentleman on his left.

He gathered his French together, and hazarded a remark: "Quelle chambre magnifique!" he said, with many distinctly foreign gesticulations. The man leant towards him confidentially. General Peel braced himself to understand. "Ain't a patch on our Guildhall," was the whisper that reached him with an unmistakable accent.

Woman Question Again.

One day Karl Edwin Harriman made a pilgrimage to General Weston's Connecticut farm and on the last lap of the journey took a jitney. The driver had his wife on the front seat with him and Harriman noticed later that it was the wife who collected the fare. As they traveled the editor spoke about the author.

"It's just like George Weston's im-
pudence to write stories about women," said Mrs. Jebu. "What does he know about women? Ain't even married!"

"That ain't no argument," said the
jitney driver, sadly, "maybe he knows
too all-fired much about 'em to git mar-
ried."

Thorough Job of Destruction.

William Funk, a truckman at Win-
sted, Conn., trying to sell at auction
a wagon which cost him \$350 several
years ago, found that nobody would
bid more than \$5 for it. "Rather than
sell it to anybody at that price, he
took the wagon to the city dump,
pulled it to pieces, threw the bolts in
various directions, made a pile of the
wheels, placed the rest of the wagon
on top, sprinkled kerosene all over
the heap, set it afire, and left the
dump, satisfied that no one would get
his wagon for a song.

The Doughnut Band.

Twenty young Salvation army lad-
ies who cooked doughnuts for the
soldiers in France have organized a
brass band in Philadelphia.

No sir-ee, bob!

No premiums with
Camels—all quality!

CAMELS quality plus Camels ex-
pert blend of choice Turkish and
choice Domestic tobaccos pass out the
most wonderful cigarette smoke you
ever drew into your mouth!

And, the way to prove that
statement is to compare Camels
puff-by-puff with any cigarette in
the world!

Camels have a mild mellowness that
is as new to you as it is delightful.
Yet, that desirable "body" is all there!
They are always refreshing—they
never tire your taste.

Camels leave no unpleasant cigarette
aftertaste nor unpleasant cigarette odor.
Your say-so about Camels will be:

"My, but that's a great cigarette".

Camels are sold everywhere in scientifically sealed
packages of 20 cigarettes, or ten packages (200
cigarettes) in a glassine-paper-covered carton. We
strongly recommend this carton for the home or office
supply when you travel.

Camel

CIGARETTES

SEPTEMBER RAPE CROP
SAVES TANKAGE COST

Lexington, Ky.—With tankage
being worth approximately \$120 a
ton it will be bigly profitable for
the farmer to sow in corn a crop
of rape which can be hogged down
in September and the cost of feed-
ing tankage largely offset. From
the middle to the last of July is
the best time to sow rape to be
hogged down in the fall.

Rape can be sown broadcast at
the rate of eight pounds to the
acre and covered with a small
fourteen tooth cultivator. When
hogs are turned in on green corn
and rape the cost and use of tank-
age is reduced. When the crop of
rape is sown after the middle of
July there is much less danger of
the destruction by plant lice which
so often injure early sown rape.

To Stop Coughing, Sneezing, Wheez-
ing

Unseasonable spring weather left
a number of coughs and colds. Now
comes the time of hay fever and
asthma and more persons than ever
will be coughing, sneezing and
wheezing. No wonder there is a
tremendous demand for Foley's
Honey and Tar, that old reliable family
remedy for coughs, colds, hay fever,
asthma and croup. It heals
and soothes that raw, rasping feel-
ing in the throat, clears the pas-
sages and makes breathing easier.

Feet Drag?

"When it is an effort to drag, over-
after the other, when you are
tired and seem lacking in strength
endurance, when aches and pains
in the body, it is well to look for
symptoms of kidney trouble.

Foley Kidney Pills

banish effects of kidney trouble
trouble by removing the cause. They
are healing and curative. They
strengthen the weakened organs
and strengthen the weakened organs.
They relieve backache, rheu-
matic pains, stiff joints, etc.

W. W. Wells, Tonquin, Mich., writes:
"I got great relief from taking Foley Kidney Pills.
I am on my feet most of the time and
out. After taking Foley Kidney Pills, I
feel like a new man. I recommend
my customers and never have heard of
where they did not give satisfaction."

SOLD EVERYWHERE

Hartford Herald \$1.50 the year

BOYS

BOYS are well-known. You don't have
to go to far lands or to the County Fair
to look upon them. Everywhere, it is
still the style to have Boys.

Perhaps you are trying to run one or more
Boys right this minute. Then you will know
that since the world began they were never
so tremendously important as now. Your
hopes and your aims center on them. You
must deliver them out of Boyhood into
successful Manhood.

Will your sons stay with the land, or will
the will-o-the-wisp of the cities call them
away? Armies of country Boys, who could
be happiest and most successful on farms,
respond to the artificial glamour of town life
before they are old enough to know their
own minds. They do not know that the
rewards of country life—in money, health,
and happiness—are far greater. Make them
realize that! Guide the restless ambitions
of your Boys and spare no pains!

Machines have been a powerful factor in stem-
ming the flow to the cities. Machines banish
drudgery and make labor interesting; machines
foster the love of mechanics in the Boy; machines
are builders of fortunes.

You now own many of the machines made by
the International Harvester Company. We are
headquarters for the International Full Line, in-
cluding Titan tractors, International engines, and
manure spreaders, Primrose cream separators,
McCormick and Deering harvesting, haying, and
corn machines, tillage tools, P.O. plows, etc. Give
the Boys every chance for liking farming and
farm life. Perhaps more of these machines will
help keep them contented.

For President
JAMES M. COX
For Vice President
FRANKLIN D. ROOSEVELT
For U. S. Senator
J. C. W. BECKHAM
For Congress
BEN JOHNSON

Mr. Editor of the Hartford Repub-
lican, in replying to your somewhat
sarcastic editorial of last week, we
would first ask you the following
question: Are you one of those
(from your editorial one would al-
most believe it) few narrow minded,
selfish creatures who accept the pro-
tection of this great Republic and at
the same time favor a cowardly
course when our liberties are at
stake? If we really could bring our-
self to the conclusion that you are
sorry that the United States entered
the war and so nobly aided in bring-
ing it to the proper conclusion, we
would not waste these few drops of
ink in making an answer.

Having questioned some persons
who were here while the U. S. was
playing her part, we find that you
were really patriotic, and therefore
we reach the conclusion that when
you so harshly criticize our great
press for getting us into the war, you
are merely doing it for political ef-
fect. We do not deny that "He Kept
Us Out Of War" was a slogan in the
election of four years ago. By his
wonderful statesmanship, he was able
for many months to prevent blood-
shed and we honor him from the very
depths of our heart for doing this,
but when the unspeakable Huns at
last gave their notice that after a
certain date there would be no mercy
known or restrictions made in their
abominable submarine warfare, there
was nothing left to do but fight and
as the whole world knows today, we
did fight most gloriously.

Now, Mr. Editor of the Hartford
Republican, the brainiest men of all
the leading nations of the world met
and after months of deep considera-
tion formed a plan to prevent all fu-
ture wars. You ask us if we are in
favor of asking American boys to
shoulder the musket every time trou-
ble arises anywhere in the world.
No, emphatically. No, that is the ver-
y reason we are for the League of Na-
tions. We are willing to risk the
judgment of the worlds greatest
statesmen like Woodrow Wilson,
Lloyd George, Georges Clemenceau,
and Orlando in preference to petty
politicians like Senators Lodge, John-
son and Harding. You talk of a
FEW hide bound partisans. If being
in favor of the League of Nations is
being hide bound and narrow mind-
ed, then there are millions of us in
this old U. S. A. How can you talk
about anyone being partisan when
you offer adverse criticism to every
sentence spoken or deed performed
by Woodrow Wilson, You, like,
Lodge and Company are down right
jealous of the great accomplishments
of the Democratic party under the
leadership of Woodrow Wilson, and
are willing to sacrifice the peace of
the entire world to see his efforts de-
feated. And yet there is no wonder,
when we realize that in 6 years of
Democratic rule more real accom-
plishments were recorded on the
pages of our country's history than in
40 years of Republican rule.

We ask as we did last week, if the
great spirit of unrest throughout the
world is not due to partisan the meth-
ods of the Republican leaders in Con-
gress in blocking the League of Na-
tions.

Senator Harding's speech makes it
plain that he does not believe a pres-
ident should preside. He thinks a
President should love, honor and obey
the party bosses.—Courier Journal.

The Republicans announce that
they will make an effort to break the

solid south and intend to begin with
South Carolina. They'd better spend
the effort in trying to hold Ohio, Ind.,
ana, New York and other northern
states in line, but let em' alone to
their folly.

JOHN H. MILLER DEAD

Mr. John H. Miller, died at his
home near Sunnydale, last Saturday,
after a brief illness. He was 67

years of age and for many years been
a member of the Methodist church.
Mr. Miller was one of the county's
most prominent farmers.

Among those left to mourn their
loss are his wife, four sons, Charles,
of New Mexico; Diamond, of near
Hartford; Lee and Thomas at home;
two daughters Mrs. Almond Duke, of
Sunnydale; and Mrs. C. L. Patton, of
Newburg Ind.

Don't Blame The Weather Too
Much

If you are feeling lazy and lan-
guid, seem dull and stupid, lacking
in strength and ambition, do not
blame it altogether on the weather.
The hot sun will not oppress you
so much if the bowels are regular
and the liver active and healthy.
Foley Cathartic Tablets banish bil-

iousness, bloating, gas, bad breath
and other results of indigestion and
constipation. They cleanse the
bowels, sweeten the stomach and in-
vigorates the liver. —(Advertise-
ment.)

Oh, Boy!

Don't Crutcher & Starks Clothes

Give a Man a Grand and G-l-o-r-i-o-u-s Feeling!

When in spite of a rainy season you manage to do some necessary plowing—

And in the midst of gentle rains you succeed in mowing the stuff that makes Shredded Wheat—

Not to mention a rather damp experience in making the corn show signs of life—

Old "Sol" finally comes from behind a cloud and whispers in your ear—
"Crutcher & Starks sell Good Clothes—and you need 'em!"

You crank up the ever-ready "Henry" and start off for the big town—and Crutcher & Starks—

Or maybe you catch the Crutcher & Starks Special "Ratt" for Louisville—

Upon careful investigation you find Crutcher & Starks' big clothing store entirely worthy of your patronage and confidence.

With surpassing service and prices that are fair and square—featuring only nationally known clothing, hats, shoes and shirts.

Newly outfitted from head to foot—Oh, Boy! Don't Crutcher & Starks clothes give a man a Grand and G-l-o-r-i-o-u-s Feeling!
—With Apologies to Briggs.

Put Your Surplus Straw Back On Your Land

The straw that you burn or use wastefully can be put back on your land with big profit. Properly spread, straw acts as a mulch on fall seeded crops. It prevents soil blowing, prevents winter killing, prevents wintersleet from smothering plants—and when turned under it has almost as much fertilizing value as manure.

Spread your straw—come in and get a John Deere Spreader with Straw Spreading attachment. Get double use and double profit from it. The John Deere Spreader with a Straw Spreading Attachment spreads

WANT HAVE WRITTEN OF WAR

From Homer to the Present Day Correspondents Have Accompanied the Armies in the Field.

War correspondents, who have a distinguished place in the latest honors list, form an ancient tribe if we reckon Homer as one of them, remarks the Manchester Guardian. Sutherland Edwards maintained that the editor of a Greek paper entitled Chronos sent Homer out to Troy to observe the progress of the siege, which really lasted only about seven weeks. But when it was at an end the Greek chiefs had no desire whatever to go home; and as Homer (or "G-Maher"—to give him his name in its original un-Hellenized form) was a very good fellow and drew a large salary with an abundant allowance for expenses, he readily accepted the idea proposed by the wise Ulysses—to keep the war going in the columns of his paper as long as he could manage to write about it. His correspondence was too good not to publish; and meantime the Greek chiefs went about amusing themselves.

There were no newspaper correspondents in the peninsular war, nor in the Waterloo campaign—though Rothschild, in 1815, had a correspondent of his own—who kept close to Wellington's army and supplied his employer with news of high financial value. After the peace of 1815 the first war of importance in Europe was the one between the Carlists and the Christians in Spain, which, beginning in 1831, dragged on in desultory fashion until 1837, when a British legion having been formed to assist the Christians, it attracted much attention in this country. British opinion was divided. Queen Christina finding support among the whigs, Don Carlos among the Tories. Both armies were accused of committing atrocities, so the Times and the Morning Post sent correspondents to find out how the war was really being carried on. Capt. Henningsen, who represented the Times, was an admirable writer and a professional soldier, whereas Charles Grunelsen, who went on behalf of the Post, possessed no military experience. Still, he proved the more successful of the two, for Henningsen's letters never reached the Times. Grunelsen's, on the other hand, appeared in the Morning Post, and on this rests the claim put forward, not by Grunelsen himself but by his friends, for classing him as the earliest of our war correspondents.

The Great Ship "SEANDBEE" — the largest and most costly passenger steamer on inland waters of the world. Sleeping capacity, 1500 passengers.

FARE \$ 4.63

The Hartford Herald, \$1.50 the Year.

Closes Saturday, July 31st.

The final finishing touch has been put on the bargain counters. Many additions have been made to our bargain list and many more disappeared altogether. But we are straining a point to make the last days as good as the first. Keep this sale before you until the store closes, Saturday night, and remember that a big list of bargains will be in evidence clear up to the last minute.

Ready-to-Wear Department

An extra slice has been taken off of some Coats, Suits and Dresses for the last days of the big sale.

Shoe Department

We need a few more small feet. You will be surprised at what you can buy in Ladies' Oxfords and Pumps in sizes 2, 2½, 3 and 3½. Every Oxford and Slipper in the store is subject to a 10 per cent reduction.

Dry Goods Department

Silks and Cotton piece goods in great variety of colors and patterns. Piece goods bargains galore.

Men's Department

The Men can make money buying at this sale as well as the Women, and the Boys always come in for their share of the good things. Suits, Hats, Caps, Oxfords, Silk Shirts and Underwear. All Clothing and Shoes from regular stock at 10 per cent off.

Millinery Department

We are going to specialize on bargains in Children's Hats the last days of the big sale.

Broken lots in Front Lace and Back Lace Madam Grace Corsets Sacrificed for the final wind-up.

Sale ends Saturday Night, July 31st, May nobody be careless or unconcerned or seemingly unmindful of the money-saving opportunity it affords.

E. P. BARNES & BROTHER,

BEAVER DAM, KENTUCKY

"INSIDE FARM DOPE"

A COLUMN FOR OHIO COUNTY FARMERS SUPPLIED BY EXTRACTS FROM THE OFFICE OF THE DEAN OF AGRICULTURE AND YOUR COUNTY AGENT—ASK YOUR COUNTY AGENT

AGRONOMY

Save seed wheat from the crop no matter if it is poor. The extra plump seed is no better than the lighter. The best way to procure the best seed wheat is to go over an acre and cut out all cheat, cockle and wild onion. Cut the area separately and thresh separately. Do not use the first seed that comes through the separator as it will contain some of the general run of wheat. After threshing run through a good fanning mill to blow out trash and put in safe place until seeding time. If there are any traces of stinking smut, the wheat should be given the formaldehyde treatment before sowing. By this method seed may be obtained from even a poor crop that is likely to be better adapted, cleaner and more desirable in many ways than wheat that can be bought. It is on hand when wanted. The best varieties are grown in Kentucky. They have all been tried. There are none better.

By far the greatest cause of loss in soils is washing. The most practical and effective means of controlling erosion is to keep the ground occupied with growing crops. Every field now in a cultivated crop should have on it this winter a cover crop of some kind, wheat and rye being the most practical crops. A rye cover crop is worth more than it costs even if it should not be pastured in the spring. An attractive poster on this subject is being prepared. Write to Mr. Elliott how many you can use. Put on a "Stop Soil Washing" campaign.

A circular on crimson clover, prepared by E. J. Kinney, will be available for distribution about July 24 and can be obtained from N. R. Elliott.

Entomology

Farmers before sowing clover, alfalfa, oats or other seeds should insist upon having a purity and germination test from the dealer and should then have a test made

by the Experiment Station or else make it themselves. If it is found the seeds are not as labeled the vendor should be notified and an agreement reached or the seeds returned. If they contain large numbers of dock, dodder or cheat seeds or wild onion bulbs, they ought not to be sown.

Home Economics

Since canned goods will sell at prohibitive prices next winter it behooves home demonstration agents to encourage the women and girls to can as many fresh vegetables as possible this summer. Fruit will be especially high and the canning of early cabbage and spinach together with the other vegetables regularly canned will insure a variety for the winter menu when fresh vegetables will be high.

Miss Mary E. Sweeney was elected president of the American Home Economics society at the annual convention held June 24-29 at Colorado Springs. By virtue of her new office Miss Sweeney will be active on the executive board of the Home Economics Journal, the official organ of the work in this country. Miss Edna N. White of Merrill Palmer College of Detroit, who is the rotating president of the society, was elected vice-president.

A change has been suggested in the second year exhibits at county fairs this year. Instead of showing one quart of peaches, one quart of pears and one quart of cherries each of the best it has been suggested that the premium be for the best three quarts of fruit, two of which shall be cherries and blackberries and the third recommended by the county home demonstration agent. For the State Fair exhibit, however, the award will be for the best one quart of peaches, one quart of cherries and one quart of blackberries.

Agricultural Engineering

The County Agent should tell his farmers why a large amount of grain goes into the stack with the straw and that he should NOT:

1. Run the machine too fast.
2. Allow the speed to run below its rated R. P. M.
3. Feed bundles crosswise. They slow down machine and permit the following bundles to go through partly threshed.
4. Feed bundles butt end first.
5. Thresh when the grain is wet early in the morning or directly after a shower.
6. Run with concaves not properly adjusted or two few concaves in order to save power.
7. Allow a thresherman to get money and not give good service. The operator should carry a speed indicator and not guess speed. Clover should not be hulled with a grain thresher unless a recleaner is added to the equipment. The causes of grain loss are easily prevented or remedied.

Horticultural Department

The leaf spot fungus of tomato attacks the older leaves first, resulting in spotting and yellowing and works toward the top of the plant. Spraying with standard Bordeaux Mixture 4-4-50 will largely control this trouble.

Grape growers find many clusters affected with black rot as they approach maturity. It is still practicable to protect some of the best clusters for home or exhibiting purposes by enclosing them in paper sacks. Two pound grocers sacks can be bought for about \$1.25 a thousand and pins for fastening at \$1.75 to \$2.00 a pound. Suggest to your people who have fine grapes to sack a few bunches. A boy or girl with nimble fingers can put on 100 or more sacks an hour.

Late Gardens

There is still time to sow seeds that will yield welcome supplies to the farm table. Where early vegetables have been grown, clear off or plow under the vines or other plants, and work the surface until fine and smooth. If soil is rather dry, soaking the seed over night will hasten germination. If put in promptly, early varieties of sugar corn will mature for table use before frost, and one or two plantings of bush beans may yet be sown. Other crops suitable for succession are beets, carrots, lettuce, cabbage, kohlrabi, turnips, kale, etc.

Second Crop Potatoes may be planted until the latter part of July. You can raise double the aver-

age yield per acre for Kentucky this fall.

First: Good soil well prepared.

Second: Good seed treated with corrosive sublimate for scab and rhizoctonia, diseases which are doing so much damage in Kentucky.

Third: Spraying as soon as the plants are fairly up with Bordeaux Mixture for blight. Three or four applications will control this disease which is also serious in the State. Arsenate of lead may be added to the Bordeaux Mixture for the potato beetles. Write for Extension Circular No. 76.

FERTILIZERS FOR WHEAT

Lexington, Ky.—With 16 per cent acid phosphate costing more than \$30, it becomes a question in the minds of some farmers as to whether or not it will pay to use this high priced phosphate on wheat. Prof. George Roberts, head of the Agronomy Department, of the College of Agriculture, gives the following results taken from the experimental fields. These records cover a period of from 4 to 6 years and were made on practically all types of soils outside of the Central Bluegrass. On untreated land that produced 8 bushels of wheat per acre he found that when 200 pounds of 16 per cent acid phosphate was applied it gave an increase of 4½ bushels of wheat and where the ground was limed and fertilized with 200 pounds of 16 per cent acid phosphate gave an increase of 9 bushels. His experiments show that on unlimed soil raw ground rock phosphate has given as good or better results on the average than an equal investment in acid phosphate. This raw ground rock phosphate cannot be used in small quantities drilled at wheat sowing time; but it should be applied at the rate of 1000 to 2000 pounds broadcast and well mixed with the soil. When the price of acid phosphate becomes more than twice as much per ton as rock phosphate he believes the farmer may well consider the use of the latter, especially on unlimed soil.

His experiments show that in using acid phosphate, limestone increases its effectiveness and in most sections of the State other than in the Central Bluegrass region the effect of lime on the clover follow-

100 Men Wanted!

WESTERN CARTRIDGE CO.
Employment Dept.
EAST ATON, ILL.

ing the wheat will pay for an application of the lime. He believes that 150 pounds of 16 per cent acid phosphate, or its equivalent in basic slag or steam bone meal, will be sufficient for wheat and that it will materially aid in giving a stand of grass and clover in the wheat. Lime should be applied at the rate of about two tons per acre; but his results show that when even as little as 1000 pounds are applied it is quite effective.

These results would show that even with the high price of phosphates, wheat growers in other than the Central Bluegrass region of Kentucky cannot afford to leave off their use on wheat. In the Central Bluegrass region nitrate of soda or sulphate of ammonia used as top dressing in the spring should give an increased yield, whereas, in this region very little increase should be expected from the use of phosphates.

AUTHORITY GIVES FACTS ON CARE OF JARS

Lexington, Ky.—Miss Mary J. Sweeney, of the Department of Home Economics, College of Agriculture, says that in canning, point to be remembered about jars are: (1) the top must fit so tight that no air can enter; (2) wrapping jar in paper prevents fruit and vegetables from fading; (3) for home canning jars are economical and desirable; (4) select jars that are perfectly and have wide mouth and protect food from touch of metal; (5) use old jars but get to without leaks, breaks or corrosion.

Don't Blame The Weather Too Much

If you are feeling lazy and languid, seem dull and stupid, lacking in strength and ambition, don't blame it altogether on the weather. The hot sun will not oppress you so much if the bowels are regular and the liver active and health. Foley Cathartic Tablets banish drowsiness, bloating, gas, bad breath and other results of indigestion and constipation. They cleanse the bowels, sweeten the stomach and invigorate the liver. BEAR HEAVY LOAD

Some of the Trials of Present-
Day Executives.

Man Who Complained That There Were
No Efficient People in the World
Had Some Excuse for His Bitter-
ness—Trouble Is Moral.

Several years ago, when I had just
been promoted to my first real job, I
called on a business friend of mine. He
is a wise and experienced handler of
men. I asked him what suggestions he
could make about executive responsi-
bility, writes Bruce Barton, in the Red
Book.

"You are about to make a great dis-
covery," he said. "Within a week or
two you will know why it is that ex-
ecutives grow gray and die before
their time. You will have learned the
bitter truth that there are no efficient
people in the world."

I am still very far from admitting
that he was right, but I know well
enough what he meant. Every man
knows, who has ever been responsible
for a piece of work or had to meet a
pay roll.

Recently another friend of mine
built a house. The money to build it
represented a difficult period of saving
on the part of himself and his wife;
it meant overtime work and self-denial,
and extra effort in behalf of a long-cherished dream.

One day when the work was well
along he visited it, and saw a work-
man climbing a ladder to the roof with
a little bunch of shingles in his hands.
"Look here," the foreman cried,
"can't you carry a whole bundle of
shingles?"

The workman regarded him sullenly.
"I suppose I could," he answered.
"If I wanted to build the job."

By "build the job" he meant "do an
honest day's work."

At 10 o'clock one morning I met still
another man in his office in New York.
He was munching a sandwich and
gulping a cup of coffee which his se-
cretary had brought in to him.

"I had to work late last night," he
said, "and meet a very early appoint-
ment this morning. My wife asked
our maid to have breakfast a half hour
early so that I might have a bite and
still be here in time."

"When I came down to breakfast
the maid was still in bed."
She lives in his home and eats and
is clothed by means of money which
his brain provides; but she has no
interest in his success, no care what-
ever except to do the minimum of work.

"The real trouble with the world to-
day is a moral trouble," said a thought-
ful man recently. "A large proportion
of its people have lost all conception
of what it means to render an ade-
quate service in return for the wages
they are paid."

He is a generous man. On almost
any sort of question his sympathies are
likely to be with labor, and so are
mine. I am glad that men work short-
er hours than they used to, and in
certain instances I think the hours
should be even shorter. I am glad they
are paid higher wages, and hope they
may earn still more.

But there are times when my sym-
pathy goes out to those in whose be-
half no voice is ever raised—to the
executives of the world, whose hours
are limited only by the limit of their
physical and mental endurance; who
carry not merely the load of their own
work, but the heartbreaking load of
carelessness and stolid indifference in
so many of the folks whom they em-
ploy.

Perhaps the most successful execu-
tive in history was that centurion of
the Bible.

"For I am a man of authority, hav-
ing soldiers under me," he said. "And
I say to this man go, and he goeth; and
to another, come, and he cometh; and
to my servant, do this, and he doeth
it."

Marvelous man!

The modern executive also says,
"Go," and too often the man who
should have gone will appear a day or
two later and explain, "I didn't under-
stand what you meant." He says,
"Come," and at the appointed time
his telephone rings and a voice speaks,
saying, "I overslept and will be there
in about three-quarters of an hour."

Sugar Hog Punished.
A man who came out of the driz-
zling rain into a Cincinnati lunch-
room late at night and ordered a cup
of coffee and two rolls, complained
when he got check for 14 cents, saying
that the bill of fare said that coffee
was 6 cents and rolls 4 cents. The
proprietor explained that there was a
charge of four cents, because the
man, sweetening his coffee, was too
free with the receptacle that dis-
charges one spoonful of sugar when
inverted. "I watched you," the prop-
rietor said. "You dumped five spoon-
fuls of sugar in your coffee."

Planting Trees on Prairies.
In order to demonstrate to farmers
on the plains the advisability and fea-
sibility of planting trees on the
prairies of the West, the Canadian
Forestry association is sending a dem-
onstration car on a tour of the three
western provinces. A railway coach is
being fitted up with a moving picture
outfit, lecture hall, and a miniature
nursery. The car will travel over the
bank of the western railway lines.

Czecho-Slovakia.
The new republic of Czecho-Slovakia
has an area of between 50,000 and 60,
000 square miles and a population of
15,000,000.

MARVELOUS IS HUMAN MIND

Five Hundred Million Brain Cells Re-
sponsive to the Call of Ruler
of the Intellect.

On a rough estimate, the brain con-
tains 500,000,000 cells, each having a
consciousness of its own. Your self-
consciousness, your personality, should
be the master of all these willing
slaves.

They are the geni of the mind,
humbly waiting to do your bidding;
guardians of the vast stores of ideas
that you, more often than not without
realizing it, have gathered along life's
highway. Are you one of the reck-
less kind, who have "no idea," or are
you in the ranks of the sensible, who
summon the spirits of the intellect to
their aid?

How is this done? Nothing more
simple. Get the problem fairly and
squarely into your head, and then for-
get it! The little geni of the brain
refuse to be coerced; humor them,
however, and there is no limit to what
they can, and will, do for you. You
have to make a decision. Turn the
problem round and round in your head
till you are giddy, you will get no near-
er to the solution. Put it away from
you. Don't force your thoughts; leave
them alone, and behold, suddenly,
when you least expect it, the idea you
have been searching for will jump into
your mind, to be instantly recognized as
the idea you wanted.

The magicians of the brain would
appear to be more amenable to femi-
nine than masculine rule, for the prov-
erbs of all nations agree that women's
best ideas are her first ones, while
man has to wait for second thought if
he would act rightly.

Our search for ideas, too, must be
systematic if we want to get hold of
useful ones.

According to the Platonic philos-
ophy, ideas are the universal types of
which individual specimens are the
more or less imperfect copies; so that
we need not be disappointed if we
cannot carry out our ideas in practice
exactly as they occur to us in the
mind.

Thought grows snowball fashion, and
is the opposite to money.

The more we spend the more we
have.—London Answers.

Good Causes and Poor Tunes.

Mr. Bernard Shaw, who has fallen
foul of "The Red Flag," which he re-
gards as an air that would ruin any
movement, seems to forget that many
a good cause has been supported by
a poor tune. The Belgian national an-
them is a remarkably inane melody
but that did not impair the resistance
of Liege. And neither the words nor
music of "God Save the King," are
particularly uplifting. The air of
"Lillibullero," that is said to have
whistled James II off the throne of
England, cannot have been a very dis-
tinguished one, for nowadays no
one seems to know what it was. On
the other hand the Russian national
anthem was easily one of the most
attractive examples of its kind in Eu-
rope, but it did not save Russia from
collapse. If the soviets have provided
a substitute for it the result would
probably please Mr. Shaw as little as
"The Red Flag," which he considers
should be rechristened "The Eternal
March of a Fried Eel."—Manchester
Guardian.

Thinks Earth Will Last Many Years.

In a recent lecture Sir Oliver Lodge,
the eminent English scientist, an-
nounced that the earth would prob-
ably continue to exist for 20,000,000
years more. These are, of course,
round numbers. Some scientists esti-
mate that the earth will live for ten
times this age. There have been ani-
mals of one kind and another on this
planet for fully this length of time.
The dinosaurs are believed to have
lived through some such period. The
age of man, which is probably only a
few thousand years, seems the merest
trifle by comparison. When we con-
sider how man has developed during
recorded history, which is less than
ten thousand years, we may hope
that he will evolve to an infinitely
finer type in the future.—Boys' Life.

Carry Photo Messages in Eyes.

Spies, engaged in a life-and-death
business, have devised extraordinarily
ingenious methods of concealment
since history began. No means could
be more remarkable, however, than that
used by the Russian bolsheviks for
getting messages through the enemy
lines. The inside skin of an eggshell
is pasted on glass, and reduced with a
microtome knife to almost impercep-
tible thinness. It is then sensitized,
and a microscope message photograph
is spread with a brush on the glass.
It is spread with a brush on the spy's
eyeball, under the lid. It does not
inconvenience the carrier, and being
quite transparent it is practically in-
visible.—Popular Mechanics Magazine.

Film Quickly Developed.

Sixty rolls of photographic film han-
dled in ten minutes' actual working
time is the claim made for a system
of glazed stoneware developing tanks
now on the market, according to Pop-
ular Mechanics Magazine. The tanks
are sold in sets of three, one for
developing, one for fixing and one for
washing. Each has a concave bottom,
terminating in a brass drain cock.
The last, or washing, tank is fitted
also with an overflow connection, to
permit continuous water circulation
from bottom to top.

Taxing the Alien in Italy.

Under the Italian laws a foreign
resident in Italy pays an income tax
solely on income derived from Italian
sources. He is not taxed on income
derived outside of Italy.

50 Years Ago

A young man who practiced medicine
in a rural district became famous and
was called in consultation in many
towns and cities because of his suc-
cess in the treatment of disease. This
was Dr. Pierce who afterward moved
to Buffalo, N. Y. He made up his
mind to place some of his medicines
before the public, and he put up
what he called his "Favorite Pres-
cription," and placed it with the
druggists in every state in the Union.

For fifty years Dr. Pierce's Favorite
Prescription has sold more largely
throughout the United States than
any other medicine of like character.
It's the testimony of thousands of
women that it has benefited or en-
tirely eradicated such distressing ail-
ments as women are prone to. It is
now sold by druggists in tablet form
as well as liquid.

NEWBERRY, S. C.—"After using Doctor
Pierce's Favorite Prescription I feel like
a new woman. My friends all tell me I
look so much better. I am more than
pleased with the result. I know that I
can't praise any one of Dr. Pierce's reme-
dies too highly. I always keep them on
hand in order to keep well."—Mrs.
Lella Surin, Route 1—Box 62.

NEIGHBORHOOD NEWS.

GRAHAM

(Special)

The farmers of this community are very busy cutting out corn and other farm work.

School has begun at Graham with Mrs. Adams teacher.

Sunday school at Green River is progressing nicely. One hundred and twenty pupils enrolled.

Worshipment last Sunday with a large Rev. Arch Shields filled his regular congregation present.

We are proud to say we had Mr. Turner, of Virginia, with us at church. He is very old, ninety years old and has been a member of the Methodist Baptist church for seventy-four years. In making his statement Sunday, he said 'I have lived in the church 74 years and am not tired yet.'

Miss Golda Cooper spent from Sunday until Monday with Miss Gorman Plener.

Miss Favorite James spent Sunday with Miss Ruth Thomas.

Mrs. Ray Hudson spent Sunday with her parents.

Miss Ella Mae Shields and Mr. Byron B. Hill, of Logansport, were the guests of Miss Gorman Plener, Sunday evening.

Miss Anna Wood, of Ceralvo, visited relatives here this week.

Miss Mildred Taylor is visiting friends at Beaver Dam, this week.

Miss Lena French will return from Louisville, Monday.

Miss Effie Gentry visited friends at each Roy neighborhood, recently.

GASOLINE TURNS THE EARTH

Motorboats Are Replacing Gondolas in Venice, and Even the Windmills in Holland Disappear.

Motorboats in Venice, replacing the gondolas are not the only mechanical profanation that is coming in to disappoint future American travelers in Europe. A letter from Amsterdam tells us that the Dutch windmills are being replaced by mills operated by steam and electric power. Every year some of the old windmills are burned, and they are not re-erected. Time may come when a few windmills will be treasured as relics in Holland; just as similar structures are still preserved on Aquidneck and Nantucket islands for their curious interest, says the Boston Transcript. Already windmills of American construction, with steel fans arranged in wheels, instead of the picturesque old wooden arms, had begun to make their appearance, even in Holland. The mettle windmill with the revolving wheel, is more picturesque than the ordinary steam or water power mill, but it is not so picturesque as the old wooden affairs. On our western prairies and plains the tall windmills, with their big metal wheels spinning high in the air, are indeed a fine feature in the monotonous landscape, but even they are in danger of yielding to the process of pumping water by means of gasoline motors. The power of the wind, to be sure, costs nothing, while that of the gasoline motor may cost a good deal, but there are times when no wind blows, and the householder tires of waiting for it to rise. Less and less we are content to attend upon forces of nature. The beautiful sails are vanishing from the seas, to be replaced by belching smokestacks. On land windmills give place to structures operated by steam and electricity. The stalwart oxen are no longer seen at the farmer's plow; it is gasoline that turns the earth now. Homeward the newfangled motor barks its way!

FAMOUS CHIMES RING AGAIN

Bells of St. Clements, in Old London, Appeal to Children, as in the Olden Days.

"Oranges and Lemons" rang out on the old bells of St. Clements on the last day of March on an evening as fine as any during the finest winter London has ever known. The bells rang, but few heard them, prevented by the roar of the Strand traffic. It was the first time the old nursery rhyme had been rung out from the steeple for a very long while. Some hundreds of school children, who had been invited to attend the church, filed out at the close in small processions, piloted across the streams of traffic by the London policemen. Every child carried an orange or a lemon, a gift which made up to them for the faint tones in which the voices of the old bells reached their ears. Down the streets with the historic names running from the Strand to the Thames, St. Clements music was more audible, the sound carrying over the noise and roar, and into the offices where anybody, with a turn of mind for antiquity, has but to throw open his window to hear the sound of a bell cast in the year of the Spanish armada.

Unnecessary to Graft Skin.

When much skin is destroyed in burns, a common resort is skin graft, applied either in small isolated patches to grow gradually over the surface, or in pieces up to two or three inches square to cover a large portion or all of the wound. At a recent medical meeting, Dr. E. G. Beck of Chicago called attention to a process of culture by which skin may be made to grow without grafting, even over large surfaces. As the wound heals the granulations at the edge of the spreading fresh skin place an elevated barrier in its way and if these granulations are removed as often as every 24 hours the patient's own skin is given a chance and may be watched spreading over the entire surface. A protective covering of paraffin often promotes the replacement of skin without grafting.

Iron Germs.

In the same manner that coral is derived from certain minute sea-insects who flourish in the South Pacific, so certain iron ores are obtained from particular microscopic organisms.

That is the latest scientific discovery, which promises interesting developments.

It has been proved that these germs not only aid in the decomposition of rocks and in the formation of chalk and limestone, but play an active part in the forming of iron-ore deposits.

Laboratory cultures have been made of bacteria which deposit iron compounds both in surface waters and in mine water hundreds of feet under ground, and the hard crusts and silty masses that choke up water-supply pipes have been found to be composed of millions of these "iron bacteria."

Nothing Green in Death Valley.

The natural vegetation of Death valley is scant and stunted. There is not a green thing that grows there naturally. The thorny mesquit trees are of a yellowish-green tinge; so, too, are the grease bushes, while the sagebrush is either a yellowish gray or the color of ashes. A little round gourd called the desert apple grows in some of the canyons. It turns yellow when ripe and has a thin meat within that is exceedingly bitter. The cactus that grows beyond the valley in abundance is rare here. In short, the vegetation of Death valley is terribly scant, even in comparison with the Mojave desert.

Scientific Triumph.

Students of the Carnegie Institute of Technology in Pittsburgh placed a radio transmitter in Central hall to send out the music of an orchestra playing in the hall to scores of radio students in the district listening in. Professor Rath, hearing the music in the experiment station of the university, half a mile away, succeeded by the use of a magnavox—an instrument to increase the sound from a radio receiver—and two strings of electric wires, in passing it on a half-mile to the Heinz house, where students danced to it.

The Press Agent's Work.

The old-time press agent is now known as a "publicity expert" and his business has greatly developed in recent years. Outside of the regular theatrical press agents, every American city has a small army of men who find lucrative employment in giving publicity to financial and industrial enterprises, philanthropic and educational institutions, hotels and restaurants, and a wide variety of other things that depend for their success upon the patronage of the public.

Little Misses Thelma and Leona Bennett, of Shinkle Chapel, are spending the week with relatives in this city.

NOTICE

Parties knowing themselves indebted to the Hartford Live Stock Co., will please come in and settle on or before August 10, 1920. HARTFORD LIVE STOCK CO. 30-21

Dental Notice!

You are invited to call and see my new Dental Office just opened over Deposit Bank. Besides the convenience we now have, we are installing Electrical equipment that will help make our services more proficient. Lady attendants.

Yours Respectfully,

DR. CHARLES R. LAYTON.

Bank Bldg. Rockport, Ky.

Office opens 8:30 a. m., closes 4:00 promptly.

Keep Up To The Mark

Good health, is impossible when the kidneys are weak, overworked or diseased. When they fail to filter out of the blood the poisons and impurities that cause sore, swollen muscles and joints, headache or rheumatic pains, prompt steps should be taken to give the kidneys and bladder the help these symptoms indicate they need. James Carmen, Mayfield, Ky., writes: "I am in good shape and can say I found Foley Kidney Pills certainly fine. I can't say enough for them." (Advertisement).

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Medicine. Hall's Catarrh Medicine has been taken by catarrh sufferers for the past thirty-five years, and has become known as the most reliable remedy for Catarrh. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces, expelling the poison from the blood and healing the diseased portions. After you have taken Hall's Catarrh Medicine for a short time you will give a great improvement in your general health. Start taking Hall's Catarrh Medicine at once and get rid of catarrh. Send for testimonials, free. F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, etc.

TO ADD MORE DOLLARS TO YOUR INCOME

Simply Make Your Income Buy More Dollars' Worth

After all, it is not dollars that anybody works for. It is for the things that dollars will buy.

If one man earns fifty dollars and gets fifty dollars' worth of goods with the money, does he really make any more money than the man who earns thirty-five dollars and gets fifty dollars' worth of goods for it?

Not a bit—except a matter of vanity, perhaps.

The \$35 man earns the other fifteen dollars WHEN HE SPENDS IT!

Or—more likely—HIS WIFE EARNs IT, when she carefully and shrewdly spends the money that her husband earns.

Now is the time to MAKE YOUR INCOME BIGGER, because dollars will buy so much more in this store.

Note the following dollar expanders:
